IT Infrastructure Administrator | [abineshram12@gmail.com](mailto:abineshram12@gmail.com) | 9751029312 | [www.linkedin.com/in/abineshramu](https://www.linkedin.com/in/abineshramu)

## SUMMARY

Results-driven IT professional with over 3+ years of experience in system administration and network administration. Proven expertise in managing and maintaining IT infrastructure, including servers, desktops, network devices, and office infrastructure. Skilled in troubleshooting, installation, configuration, and security of systems and networks. Adept at optimizing performance, reducing downtime, and ensuring network and system security. Currently contributing to the growth of Digital Software Company by ensuring the smooth operation of both hardware and network systems.

## EXPERIENCE

**Company Name:** Digital Logiciel Solutions Pvt Ltd.

**Designation:** System and Network Administrator.

**Experience:** Oct - 2023 to Present.

**Responsibility:**

- Administer and maintain servers (Windows, Linux) and network devices to ensure operational stability and security across the entire office environment.
- Oversee configuration and maintenance of routers, switches, and firewalls, ensuring optimal network performance and security.
- Manage office infrastructure including desktop support, printer management, and networked device configuration.
- Configure and manage user accounts, permissions, and policies within Active Directory, ensuring a secure and organized environment.
- Lead troubleshooting for both hardware and network issues, minimizing downtime and ensuring minimal disruption to business operations.
- Design and implement backup strategies, ensuring business continuity with regular offsite backups and disaster recovery plans.
- Maintain and monitor network security protocols, including firewalls, VPN access, and intrusion detection/prevention systems.
- Collaborate with teams to deploy and upgrade IT infrastructure, optimizing performance and supporting new business initiatives.
- Manage software deployment, patch management, and system updates across the networked systems to ensure security compliance.

**Company Name:** Qserve IT Solution.

**Designation:** System Administrator.

**Experience:** Nov - 2022 to Aug - 2023.

**Responsibility:**

- Responsible for the day-to-day management and administration of company systems, including desktop and server environments (both physical and virtual).
- Installed and configured operating systems (Windows, Linux) on servers and workstations, performing regular system updates and patches.
- Provided technical support for end-users, troubleshooting system errors and resolving software and hardware issues.
- Maintained and configured Active Directory and Exchange for user management, ensuring proper access and security protocols.
- Managed network systems, including router/switch configurations and basic network setup for optimal connectivity.
- Implemented and maintained network security protocols, including setting up firewalls and securing remote access systems for employees.
- Documented IT procedures, configurations, and system/network topologies to maintain accurate records.

**Company Name:** Vel Electronics.

**Designation:** Electronics Repair Technician.

**Experience:** 7 Months.

**Responsibility:**

- Specialized in the repair and troubleshooting of laptops, mobile phones, and TV sets, providing in-depth diagnostics and cost-effective solutions for customers.
- Replaced broken or damaged components such as screens, batteries, charging ports, and internal parts.
- Performed software repairs, OS re-installations, and firmware updates for electronic devices to restore functionality.

## CORE COMPETENCIES

---

**System Administration**

- Windows Server, Linux, (Installation, Configuration, and Troubleshooting).
- Virtualization (VMware, Hyper-V).
- Active Directory, DNS, DHCP Management.
- Server and Desktop Support (Hardware and Software Issues).
- Backup and Disaster Recovery Solutions.
- User Account Management and Security Policies.
- Patch Management and Software Deployment.
- Hardware Configuration, Diagnostics, and Troubleshooting.
- Office Infrastructure (Printers, Networked Devices).

**Network Administration**

- Router and Switch Configuration (Cisco, Aruba, HPE).
- Network Security (Firewalls, VPNs, IDS/IPS, SSL).
- TCP/IP Networking, Subnetting, Routing Protocols (OSPF, RIP, BGP).
- IP Addressing, DHCP Configuration, and DNS Management.
- LAN/WAN Setup, Maintenance, and Troubleshooting.
- Wireless Networking (Wi-Fi Configuration and Security).
- Network Monitoring (Zabbix, Nagios).
- VPN and Remote Access Solutions.
- Cloud Solutions (Azure, AWS).

## CERTIFICATIONS

---

- |                                                              |             |
|--------------------------------------------------------------|-------------|
| • Cisco Certified Network Associate (CCNA)                   | <b>2022</b> |
| • Microsoft Certified Azure Administrator Associate (AZ-104) | <b>2023</b> |

---

## PROJECTS

---

- **Office Infrastructure Upgrade (Digital Software Company):** Led the migration of physical servers to a virtualized environment, reducing hardware costs by 25% while improving scalability and uptime and move office location with zero downtime.
- **Network Optimization (Qserve Company):** Spearheaded a network upgrade project that included reconfiguring the routing protocols and enhancing network security, resulting in improved system response times and reduced security incidents by 30%.
- **Disaster Recovery Plan Implementation:** Designed and executed a disaster recovery plan, implementing both local and cloud backup solutions to ensure business continuity and protect critical company data.
